India is a young nation full of energy and promise – all set to pick up the speed to lead. And Activa is proud to be a trusted partner in this progress, just like it has been over the last two decades.

After all these years of transforming Indian lives and taking them places, Activa is not just a mode of conveyance, but a shared identity for the Indians. No matter where you are, what you do, or how you dress, riding an Activa makes you an integral part of the same family. A family that has several different definitions for multiple things, but only one word for scooter – Activa.

Silent Start with ACG

Activa is equipped with ACG starter, which starts the engine silently by removing the gear meshing noise. It also reduces maintenance.

PGM-FI FUEL INJECTION

Programmed Fuel Injection

Sensor Based PGM-FI System constantly adjusts the air/fuel mixture, as per the ride mode and conditions, allowing complete combustion. This results in consistent performance, better fuel efficiency, all-weather start, and lesser emissions.

Experience the globally acclaimed eSP technology that reduces friction and improves combustion, delivering class leading performance and mileage.

10%[^] More Mileage

The winning combination of a completely new engine platform and Honda's globally acclaimed eSP technology delivers 10%[^] more mileage.

Bigger Front Wheel with Telescopic Suspension

Sail through rough roads and uneven paths on Activa with its bigger front wheel and telescopic suspension.

Double Lid External Fuel Fill

External fuel filling for a hassle free experience. Now get fuel filled while sitting on the scooter.

Scooter bole toh
ACTIVA

Elegant Instrument Panel

Activa features prudent instrument panel depicting all the micro details required for your ride.

Engine Start/Stop Switch

Start and stop your scooter at the press of a button anytime, anywhere for utmost convenience.

Ample Under Seat Storage Space

Large storage space to accommodate what you want - from full face helmet to shopping bags.

Multi - Function Unit

One compact console ensures convenience of operating ignition, handle lock, seat lock and external fuel lid.

3-Step Adjustable Rear Suspension

Now customise your ride as per your comfort with the 3-Step Adjustable Rear Suspension.

LED DC Headlamp

The LED DC Headlamp gives consistent illumination while riding irrespective of the acceleration, making your ride well-lit and safe.

Smart Key

With **H-Smart** Technology

The world is now used to a 'Smart' way of living. We all lead a life with an assured sense of convenience. So, why shouldn't everything about your ride be smart too?

Introducing our new Honda Smart Key with H-Smart Technology. It comes with several features that will transform your experience of using an Activa – right from the moment you unlock it.

Now, there's only one word for this amazing key – Smart, like there's only one word for scooter – Activa!

the demo of
all features

SmartSAFE

We've ensured that your Activa is always secure, even if it is not in sight. With the **Anti-Theft System**, you don't have to think twice about locking your ride, the Smart Key takes control over the protection of your scooter and it will be automatically locked when the Smart Key goes out of your Activa's range.

Smart FIND

It's a hassle when one has to go looking for their ride in a parking lot or a crowded place among an array of other two-wheelers, or even in low-light conditions. With the Smart Key, this trouble is taken care of. All you have to do is, click on the **Answer Back Button** on your key, and all the four indicators of your Atila will blink twice. It can be easily located even if it is as far as **10 meters!**

The Demo

Smart UNLOCK

Your two-wheeler key isn't always handy, but with Honda Smart Key, you won't need the key in hand. When the Smart Key is within the **2 meter range** of Atila, you simply have to push the switch and your **seat, fuel cap and handle** can all be unlocked just like that.

The Demo

SmartSTART

Here's a way to start your ride that doesn't even require you to take out the key from your pocket! Once the key is within **2 meters** of your Activa, and activated, all you have to do is **push the knob** – the LED Smart Key indicator on the speedometer will come on – then just rotate the knob **to turn on the ignition**. If not turned on within 20 seconds, the LED indicator goes off automatically. Now you just have to **press the start switch** to start your ride.

The Demo

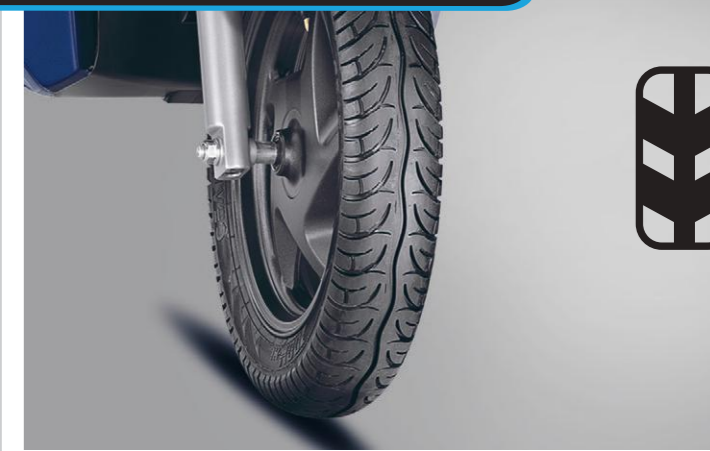

ALLOY WHEELS

With every rotation, these wheels make a statement that is **strong yet stylish**. They also provide better heat conduction. You can now ride in style with an utmost level of comfort.

FUEL EFFICIENT TYRES

Honda has developed a new **Tyre Compound Technology** that greatly **reduces rolling resistance** to maintain the road grip. The tyres are **tubeless**, so there's no immediate deflation in case of a puncture.
